NEO SYNTHETIC POWER STEERING FLUID

Product Data Sheet – NEO Synthetics High Performance Motor Oils

NEO Synthetic Power Steering Fluid is a premium formulation of high quality synthetic base oil and premium additives. It provides optimum protection in all power steering systems for North American, European and Asian OEMs.

FEATURES

- Protects power steering system against wear
- Provides controlled seal swellings
- Resists foaming, oxidation, corrosion and rusting
- Product meets or exceeds requirements of the GM Saginaw specification

Product meets the level performance requirements of:

- GM Saginaw Power steering,
- Chrysler MS 1872 /MS 5931F,
- Ford M2C138-CJ I M2C33-F I M2C128-C and D,
- Acura I Honda PN 08206-9002 PE,
- Mercedes Benz PN 00 989 8803,
- Saab PN 30 09 800,
- Subaru PN KOZ09A0080.

TYPICAL PROPERTIES

TEST	RESULT
Appearance	Bright & Clear
Gravity, 0 API	31.00
Color (ASTM D 1500)	1.00
Viscosity:	6.5
est@ 100 deg C	50,000
Brookfield vis @ - 40 deg C, cps Viscosity Index	155
Flash Point deg C Pour Point deg C Zn%, wt	220
Rust Test	-45
	0.0075

Cu, Corrosion	Pass
Test Foam	Pass
Seq. 1111/113	Pass
